Hello, my name is [REDACTED] I wanted to inform someone at ripple that an exchange you have listed where you can buy XRP has gone down and people can not access their money or any of those digital assets. The exchange is **Kraken** I have 4834 XRP coins in an account and have zero access to them. The site has been down for several days and if you go online a lot of people believe their assests have been stolen. I'm writing this because **kraken** is an exchange suggested on your website and perhaps you might be able to Find out what is going on with the exchange you have listed on your website. I am not a wealthy person an put money into XRP because I truly believe in ripple. If you have any info regarding the **Kraken** exchange I would appreciate hearing what you have to say
